

ATG Launch Checklist Home

The ATG Launch Checklist is a collection of best practices built up over the years by professional services architects who have become familiar with setting up production systems and the specific things required for Oracle (ATG) Commerce site configurations.

This checklist is now a community site, and we encourage others to share what they have learned across implementations and engagements.

Contribute!

To contribute:

Create an account on [Spark::red's Account Page](#) and send an email to support@sparkred.com to be added to the contributor's list.

Once registered and approved for access, log in to Spark::red Confluence here:

<https://www.sparkred.com/confluence/login.action>

and then navigate to the ATG Launch Checklist Space here:
